Profile

Backend-focused software engineer with 6+ years of experience in enterprise systems, Spring Boot microservices, and cloud platforms (AWS/Azure), currently solving infrastructure challenges in the telecom and public safety domain.

Skills

Programming Languages

Java, Python, JavaScript, C++, PHP, GO

Web Technologies

HTML, CSS, JSP, Servlets, JavaScript, XML, JSON

Cloud Platforms

AWS, Azure

DevOps Tools

Docker, Kubernetes, Jenkins, Kafka

Testing

JUnit, Selenium, Mockito

Frameworks

Java Swing, Spring MVC, Spring boot, Spring Security, Node.js, Hibernate, Maven, JUnit, Selenium, Jenkins

Database Management

MySQL, PostgreSQL, MongoDB

Version Control

Git, GitHub, GitLab, Gerrit

Tools

VS Code, IntelliJ IDEA, MySQL Workbench

Project Management

Agile, Scrum, Kanban

Professional Experience

04/2025 – present
Tampere, Finland

Senior Software Engineer

Teleste

- Resolved critical customer-reported issues and bugs, ensuring high system availability and user satisfaction within Teleste's Public Safety and Mobility solutions.
- Designed and implemented new features to enhance platform capabilities, collaborating closely with clients to meet evolving requirements and improve operational efficiency.

04/2022 – 03/2025
Tampere, Finland

Software Engineer

Nokia Sol. & Networks Oy

- Developed 8+ Spring Boot microservices for real-time network monitoring and fault management, reducing response time by 30% and supporting data flow.
- Enhanced code reliability and quality by writing 150+ unit and integration tests with JUnit and Mockito, increasing test coverage from 65% to 92% and catching 25+ critical bugs pre-production.
- Technologies:** Java, Spring, JUnit, Mockito, PostgreSQL, REST APIs

12/2020 – 12/2021
Lahore, Pakistan

Software Engineer

Confiz Limited

- Built scalable, non-blocking microservices with Spring WebFlux and Reactor, improving responsiveness and reducing latency under peak loads; enhanced startup performance by 25% through I/O and dependency optimizations.
- Led API validation using Karate, ensuring robust end-to-end test coverage and high reliability across diverse real-world scenarios.
- Technologies:** Java, Spring WebFlux, Reactor, JUnit, Mockito, Karate, REST APIs, Git, Gradle.

02/2019 – 12/2020
Lahore, Pakistan

Java Developer

Retain 24

- Worked offshore on a gift card platform web application developed with JSP and Servlets, enhancing functionality by resolving client-reported issues and implementing new features such as schedulers to boost automation and reliability.
- Collaborated closely with onshore teams and clients to troubleshoot defects, streamline workflows, and ensure timely delivery of critical updates and enhancements.
- **Technologies:** JavaEE, Apache Tomcat.

05/2018 – 02/2019
Lahore, Pakistan

Junior Software Engineer

Lone Star

Started as an intern and transitioned into a full-time role based on performance and project impact.

- Translated client requirements into scalable software designs, ensuring alignment with business goals and successful project delivery.
- Developed multi-tier JavaEE applications using Spring MVC, optimizing performance and maintainability to meet evolving business needs.
- **Technologies used:** Java EE, Spring MVC, Hibernate, JSP, REST APIs

Projects

Full Stack Job Portal

Description: Built a full-stack job portal using Spring Boot, Thymeleaf, Spring Security, and JPA. The portal enables recruiters and applicants to manage job listings and applications seamlessly.

Features:

- Recruiters can create job listings and view applicants.
- Applicants can apply for open positions and track their applications.
- Secure user authentication and role-based access control.
- Dynamic content rendering with Thymeleaf.
- Persistent data storage and retrieval using Spring Data JPA and MySQL.

Technologies Used: Spring MVC, Thymeleaf, Spring Security, Spring Data JPA, Hibernate/JPA, MySQL.

Certificates

- Microsoft Certified: Azure Fundamentals

Education

08/2020 – 03/2024
Tampere, Finland

Masters in Software, Web & Cloud (Msc Tech)

Tampere University
3.76 GPA

08/2013 – 08/2017
Sialkot, Pakistan

Bachelor's in Software Engineering

University of management and technology
3.48 GPA
